

REMARKS

This case has been carefully reviewed and analyzed in view of the Official Action dated April 30, 2004.

The Examiner has objected to the drawings under 37CFR1.83(a). The power steering system has been canceled from the claims in order to overcome this objection. A red-lined photocopy of the drawing for FIG. 1 showing **the upper oil chambers of the hydraulic cylinders and the lower oil chambers of said hydraulic cylinder** is submitted for the Examiner's approval.

Further, the Examiner has objected to claims 1-7 because of informalities. Claims 1-7 have been canceled and replaced with new claims 8-14. It is respectfully requested that this objection be withdrawn.

The applicant has reviewed the prior art as cited by the Examiner but not used in the rejection and believes that the new claims clearly and distinctly patentably define over such prior art.

It is now believed that the subject Patent Application has been placed in condition of allowance, and such action is respectfully requested.

Respectfully submitted,

Signature
